LIGHTING IN ABBEYVILLE ESTATE

Notice of Motion from Councillor Leyden – 1/15.

“That funding would be provided from the Roscommon Municipal Area lights budget to cover the cost of lighting the Abbeyville Estate, Galway Road, Roscommon Town.”

The Meetings Administrator read out the following reply:-

The estate referred to in the Notice of Motion is the subject of a Site Resolution Plan agreed between the Council's Planning Department and the Developer and his agent. The Council understands that a number of street lights were recently repaired by the Developer. A recent inspection of the development by the Council confirmed that all the street lighting within the estate is now fully operational.

Councillor Leyden informed the meeting that residents in the Abbeyville Estate, Roscommon had received a letter from an E.S.B. company stating that lights will be turned off if bills are not paid. Further clarification was sought to ensure that the public lighting will not be turned off in the estate should the site resolution plan not be implemented.

Members raised the issue of other estates throughout the Municipal District where public lighting is an issue. Abbeyville Estate cannot be dealt with in isolation to the other estates. All estates must be examined as this will be a serious issue coming into the winter months and the allocated spend of €20,000 on bulbs.

John O'Rourke, A/Director of Services responded that if the Council is liable for the lighting bill, it will be paid, however the developers must be responsible also.
