6. Notices Of Motion
- 6.1 MB5.26 Cllr Sean Moylan - Feasibility Study - Public Sewerage Scheme

That Roscommon County Council undertake a feasibility study to assess the need for, and viability of, a public sewerage scheme and wastewater treatment plant for the Ardcarne- Knockvicar area. Such a study would ensure the Council is prepared to progress the project, and is in a strong position to secure and avail of any future Government funding that may become available.
- 6.2 MB6.26 Cllr. Tom Crosby - Update Rooskey Bridge

That the Director of Services provide an update on the current status of the proposed upgrade of Rooskey Bridge. The previous trial of a one-way traffic management system with traffic lights

proved unsuccessful and was overwhelmingly rejected by the local community. The only sustainable solution is the widening of the bridge to provide two-way traffic and safe pedestrian footpaths. Planning approval was secured, approximately €123,000 was invested in design, and funding of €1.4 million was allocated before being withdrawn. I call on the Council to seek the reinstatement of this funding, adjusted for inflation, to deliver this long-overdue strategic infrastructure project.
