

NOTICE OF MOTION – MARCH 2017

1. Notice of Motion from Councillor Naughten 01/17

"That Roscommon County Council put in place funding at the 2017 Roads Budget Meeting that will allow small drainage works to be contracted out, as there are currently inadequate outdoor staff to undertake this work."

The Meetings Administrator read out the following reply:-

Drainage works are carried out in the Athlone MD subject to the availability of specific funds for each project. The use of contractors for such work can be considered but is subject to a Framework Agreement with SIPTU who represent our outdoor workers.

2. Notice of Motion from Councillor Kilduff 02/17

"That Roscommon County Council take in charge the full extent of the Hodson Bay road L2020"

The Meetings Administrator read out the following reply:-

It is the intention of Roscommon County Council to have the road referred to taken in charge.

3. Notice of Motion from Councillor Ward 03/17

"I am calling on Roscommon County Council to provide funding for additional car spaces at the church of the Risen Christ Kiltoom. The Church is situated off the N61 and cars attending mass have to park along the roadside of this extremely busy national road which has a speed limit of 100KM."

The Meetings Administrator read out the following reply:-

Roscommon County Council will assess parking requirements at this location in line with our responsibilities in this regard. I have checked the Land Registry regarding Council ownership in the immediate area, and confirm that none of the land in the immediate area is owned by Roscommon County Council. There does not appear to be any funding stream available to address this problem other than at the discretion of the Councillors through the MD Funding Scheme.
